## § 3415.9 Other conditions.

The Administrator may elect to use a portion of available funding each fiscal year to support an Annual Conference, the purpose of which will be to bring together scientists and regulatory officials relevant to this program. At the Annual Conference, the participants may offer individual opinions regarding research needs, update information and discuss progress, or may offer individual opinions on areas of risk assessment research appropriate to agricultural biotechnology. The annual program solicitation will indicate whether funds are available to support an Annual Conference and, if so, will include instructions on the preparation and submission of proposals requesting funds from the Department for support of an Annual Conference. The Department may also elect to require principal investigators whose research is funded under this program to attend an Annual Conference and to present data on the results of their research efforts. Should attendance at an Annual Con-

ference be required, the annual program solicitation will so indicate, and principal investigators may include attendance costs in their proposed budgets.

The Administrator may, with respect to any grant or to any class of awards, impose additional conditions prior to or at the time of any award when, in the Administrator's judgment, such conditions are necessary to ensure or protect advancement of the approved project, the interests of the public, or the conservation of grant funds.

## Subpart B—Scientific Peer Review of Research Grant Applications

### § 3415.10 Establishment and operation of peer review groups.

Subject to § 3415.5, the Administrator shall adopt procedures for the conduct of peer reviews and the formulation of recommendations under § 3415.14.

### § 3415.11 Composition of peer review groups.

(a) Peer review group members and *ad hoc* reviewers will be selected based upon their training and experience in relevant scientific or technical fields, taking into account the following factors:

(1) The level of formal scientific or technical education by the individual and the extent to which an individual is engaged in relevant research activities;

(2) The need to include as peer reviewers experts from various areas of specialization within relevant scientific or technical fields;

(3) The need to include as peer reviewers experts from a variety of organizational types (e.g., universities, Federal laboratories, industry, private consultant(s), Federal and State regulatory agencies, environmental organizations) and geographic locations; and

(4) The need to maintain a balanced composition of peer review groups related to minority and female representation and an equitable age distribution.

(b) [Reserved]
